FUND BALANCE AND CASH FLOW

North Carolina is required by statute to maintain a balanced general fund budget on an annual basis. The annual budget as appropriated by the General Assembly is considered balanced on a cash basis when the year-end fund balance is greater than zero.

During the fiscal year fund balance is calculated by adding the beginning available cash basis fund balance to revenues collected and subtracting expenditures. The fund balance calculation is one of several tools used to evaluate how well the annual budget is being managed and to project whether or not funds will be available at year-end to satisfy the statutory requirement of a balanced budget.

The following graph demonstrates wide fluctuations in fund balance during the year. In an examination of fund balance it should be noted that expenditures occur on a fairly consistent basis throughout the fiscal year, while revenues tend to be lower in the first half of the fiscal year.

* A comparison of actual revenues to year-to-date budgeted revenues is found on page 3.

Comments with regard to various revenues are as follows:

When compared to the prior year through December 31, 1999 actual tax and non-tax revenues increased by \$173.6 million, or 2.8%. The Department of Revenue was unable to complete the processing of all December payments in the month of December due to the large volume of tax payments received. The month of January 2000 will reflect increased collections due to delays in December processing. However, additional collections in the month of January will be further delayed due to one of the greatest snowfalls on record in the State's history.

Tax revenues are presented net of refunds to taxpayers and various transfers. Comparisons of current and prior year tax revenues are made difficult due to the practice of netting various transfer expenditures against the tax revenue sources. Examples of such transfers include:

- reimbursements to local governments;
- reimbursements for costs of administration of sales and use tax for local governments; and
- transfers to the Public School Building Capital Fund and Critical School Facility Needs Fund.

Individual Income Tax

Individual income taxes for the period through December 31, 1999 increased by \$101.1 million, or 3.3%, over those of 1998-99. Actual collections were less than projections through December 31, 1999 by \$151.9 million, or 4.6%. The Department of Revenue was unable to complete the processing of all December payments in the month of December due to the large volume of tax payments received. The month of January 2000 will reflect increased collections due to delays in December processing. However, additional collections in the month of January will be further delayed due to one of the greatest snowfalls on record in the State's history.

Corporate Income Tax

Through December 1999, the tax reimbursements to local governments offset against corporate income tax totaled \$101.5 million. The net revenues for the period through December 31, 1999 represented an increase of \$35.5 million, or 9.4%, over 1998-99.

Bailey Case — State Tax Refunds - State Retirees. State and local government retirees filed a class action suit in 1990 as a result of the repeal of the income tax exemption for state and local government retirement benefits. The original suit was dismissed after the North Carolina Supreme Court ruled in 1991 that the plaintiffs had failed to comply with state law requirements for challenging unconstitutional taxes and the United States Supreme Court denied review. In 1992, many of the same plaintiffs filed a new lawsuit alleging essentially the same claims, including breach of contract, unconstitutional impairment of contract rights by the State in taxing benefits that were allegedly promised to be tax exempt and violation of several state constitutional provisions.

Patton Case — State Tax Refunds - Federal Retirees. On May 23, 1995, retired federal employees sued for refund of income taxes paid upon pension income for tax years 1989 through 1993. They alleged that the incremental pension increases granted state retirees since 1989 unconstitutionally discriminate against them. The North Carolina Supreme Court ruled in the Bailey case on Friday, May 8, 1998. On June 9, 1998 representatives of the State and the various retirees involved in the Bailey and Patton cases announced a settlement in the amount of \$799 million. Of this amount, \$400 million was paid in refunds in November 1998 for fiscal year 1998-99, and \$399 million in July of fiscal year 1999-2000.

Smith v. State – Intangibles tax refunds to non-protesting taxpayers. On February 21, 1996, the U.S. Supreme Court declared North Carolina's intangibles tax unconstitutional. Subsequently, the State made refunds of intangible taxes paid by all persons who had complied with the provisions of G.S. 105-267, **Taxes to be paid; suits for recovery of taxes**, for obtaining refunds of unconstitutional taxes. The Smith case is an action aimed principally at recovering intangibles tax refunds for taxpayers who failed to comply with the provisions of G.S. 105-267. On December 4, 1998, the Supreme Court ruled that North Carolina will have to pay refunds to non-protesters who paid intangibles taxes. This case has been consolidated with Shaver v. State, another action for refund of intangibles tax paid on shares of stock. The consolidated case has now been settled and the agreement requires the State to pay \$440 million into a settlement fund in two installments, \$200 million by October 1, 1999, and \$240 million by July 10, 2000.
